ABOUT ME

Computer Science undergraduate with hands on experience in C++, JavaScript, and SQL. good understanding of data structures, algorithms, and database systems. Skilled in developing efficient web applications and solving real world problems through structured and optimized approaches. Interested in developing scalable applications and continuously improving technical skills.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science Engineering

Symbiosis Institute of Technology, Pune

2024 – 2028

Relevant Coursework: Database Management Systems (DBMS), Operating Systems, Computer Networks, Cybersecurity, Java programming, Full stack development, Artificial Intelligence, Data structure & Algorithm

SKILLS

- **Programming & Tools:** SQL, C++, Javascript, Java
- **Database & Software:** MySQL, Linux, Git , Maven
- **Libraries & Frameworks:** React, Node.js
- **Soft Skills:** Leadership, Teamwork, Critical Thinking

CERTIFICATIONS

- Full Stack Development – Infosys Springboard
- MySQL – Coursera
- Cybersecurity Fundamentals – OPSWAT Academy
- Operating System Fundamentals – Scaler Topics

PROJECTS

InsightED – Self-Study Assistance & Academic Performance Analysis System

- Developed a full-stack web application that analyzes academic syllabi and identifies gaps between university curriculum and industry requirements for desired roles.
- Enabled users to generate personalized study roadmaps, practice quizzes, and improve engagement through an integrated focus timer.
- Provided AI-driven insights and progress tracking to help users monitor their learning, productivity, and academic performance effectively.

MediTrack – Smart Medical History Record System

- Developed a Java-based desktop application to manage and organize patient medical records, improving accessibility and reducing manual effort.
- Integrated an AI-based summary system to generate structured health insights from patient records, enhancing understanding for users and healthcare providers.
- Enabled features such as appointment scheduling, medicine search, reminders, health monitoring, and centralized storage of medical reports and billing data.

RESULTS AND ACHIEVEMENT

- Secured 3rd position in a district-level Science Exhibition, representing the college and showcasing an innovative project among multiple competing teams.
- Media Executive – CodeX Club: Responsible for managing content and supporting promotion of club activities and events.
